

# The Leader in Staff Evaluations & Professional Growth

**mVal® centralizes all aspects of staff learning, professional growth and evaluation**

- Manage teacher, principal and support staff evaluations and professional growth.
- Easily convert paper-based forms to an electronic process that encourages self-assessment and reflection.
- Easy integration with eWalk®.
- Electronic portfolios linked to Florida Teacher Competencies for 21<sup>st</sup> Century.
- District-wide power and reporting.

**mVal®** from Media-X Systems is a complete, and easy-to-use system for helping teachers and other staff with professional growth including formal performance appraisals, self-assessment, learning plans, portfolios/evidence logs, improvement plans - and much more.

**mVal®** is easily customized to your district's requirements and encourages a collaborative approach focused around identified competencies, rubrics and look-fors.

**mVal®** helps administrators complete evaluations quickly with direct input from staff. Centralized storage, offline handheld clients and a host of features have made this a top selling Media-X application since 2002.

**mVal®** includes a variety of built-in statistical reports and, for greater control, Media-X can provide **mVal®** reports customized for your organization. **mVal®** can also be used with **eWalk®** and further extended with on-line surveys and other data collection options.
