Classroom Observations & Evaluations

**media-x**  
Powerfully Simple

# Streamline Your Classroom Observation Process

to

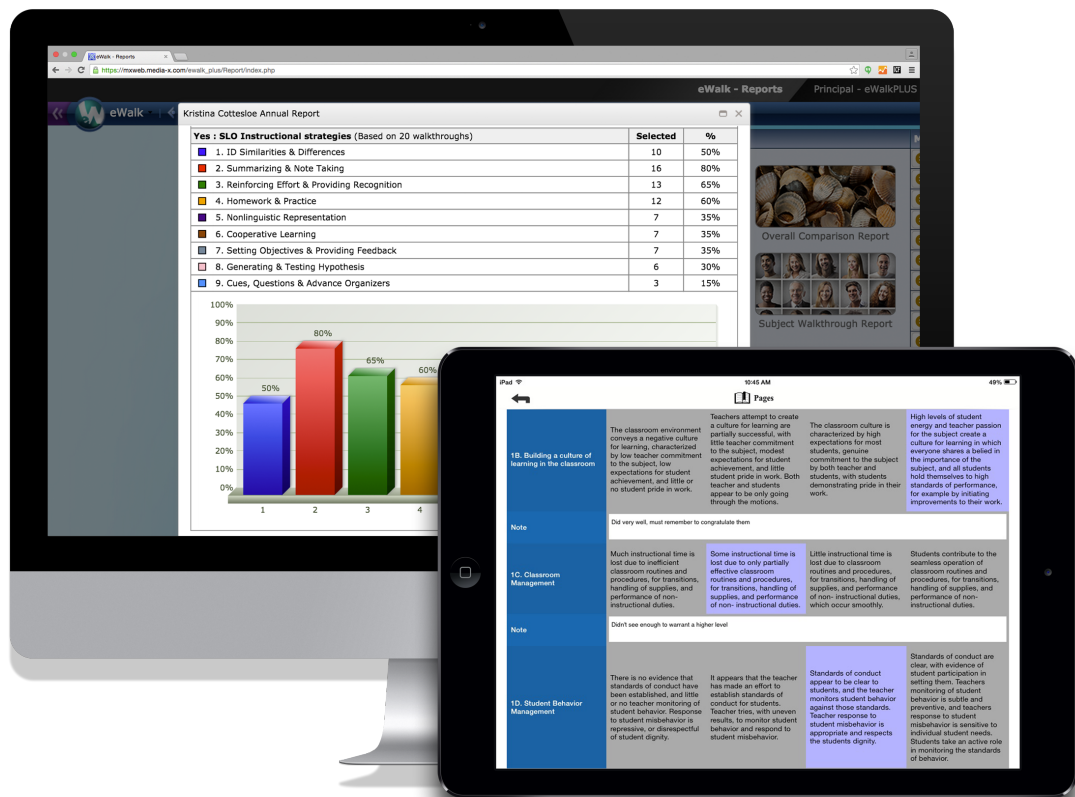

## Focus on Observing Great Teaching. *Not Taking Notes.*

eWalk from Media-X is a completely customizable classroom observation system that is used by thousands of elementary and secondary schools every day. eWalk seamlessly integrates all processes related to classroom observation, staff evaluation, appraisals, self and peer assessment as well as growth and learning plans.

eWalk's flexible system makes it simple to create process views, categories, framework templates, dashboards and reports that are customized to your school or district's requirements. Our team works with you to integrate functions into a seamless workflow.

These features contribute to making eWalk a powerful, but easy to use software tool for everything from informal classroom observations to staff evaluations for teachers, principals and more. eWalk is available for both Windows and Apple computers and their respective mobile devices.

# Why eWalk?

*"eWalk has been the vehicle by which we have transformed the culture of our school."*

*Dr. Sean Kelly, Principal  
Douglas County School District*

## Stay Organized

You're not still using a pen and paper, are you?

eWalk keeps all of your site's observation data, organized and secure for quick viewing. eWalk can save your reports as PDF's so you can send them to your colleagues, or print them. Furthermore, you can export your data to an Excel file.

No longer will you misplace your valuable data.

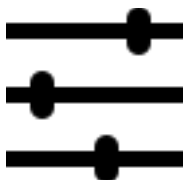

## Save Time and Money

Conduct your observations and immediately upload the data to the eWalk system. Never again will you have to manually copy handwritten data forms to computer forms. eWalk takes care of this whole process.

Quickly and easily compare a teacher's observation statistics with their past observations, or even compare their stats with the entire faculty. Spend less of you or your staff's valuable time by letting eWalk instantly construct rich, detailed reports with your data. eWalk's robust reporting functions immediately provides you with the data you need to see.

## Customize to Suit Your Needs

The flexibility that eWalk provides is unequalled by other software of this type. eWalk can accommodate if you need precise, custom rubrics, or if you require specific framework models.

Try eWalk and revolutionize your observation and evaluation process.

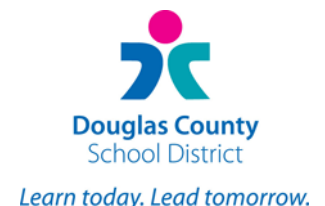

# Who Else Uses eWalk?

*"Some of our senior staff saw eWalk and we bought licenses for the building admins. The results were dramatic. Through the reporting tool, we were able to see district-wide data and were immediately able to compare any school with any other school and/or district-wide data."*

Chris Allen, Technology Facilitator  
Renton School District

Over 5000 schools currently utilize eWalk in both large and small school districts. Here are some of our current clients:

# Use eWalk Via a Web Browser or Your Mobile Device

Complete your observations conveniently with the eWalk mobile application for iOS and Android devices. The mobile application allows classroom observations to be conducted offline, which is ideal for schools without full or dependable WiFi coverage.

The eWalk mobile application collaborates with the web-based version of eWalk to provide a complete end-to-end solution for mobile data collection with cloud-based data storage and analysis.

This application also takes advantage of many native iPad / iPhone features such as voice dictation, built in camera and location services.

Download the eWalk App via the Apple App store or Google Play.

## Some features of the eWalk App include:

- Intuitive interface with easy access to creating and managing observations
- A useful History feature to review data from previous observations
- Download any previous observation from the web version of eWalk
- Intelligent sync between offline and online observations
- GPS location tracking for observations

# Excellent Support

*"Thank you for your help. I have appreciated your help all these years. I am not saying that "just because" – not all vendors have good customer service after a product is purchased."*

*Norma J. Greenwood  
Assistant Superintendent for Teaching and Learning,  
Lamar County Schools*

Our support team is only happy to assist, should you require assistance with eWalk. Recognizing that not every school or school district is exactly alike, we get to know you, your unique needs and your objectives to help you reach all of your goals.

Both helpful and understanding, our support team provides quick resolutions to any issues.

## Support Provided and Included

- a) Access to Media-X toll free telephone support,
- b) Access to email and web-based technical support for all users,
- c) Online help resources for all users, including the **Media-X Help Center** - an online website devoted to product documentation for Media-X products,
- d) Onsite training as provided in sales agreement or as purchased.

# Comprehensive Training Available

*"I began utilizing the eWalk reporting system for our Phase II walkthroughs this afternoon. I just wanted to take a moment and say THANK YOU SO VERY MUCH for all of your help on our templates!"*

Dr. Kevin Marie Laxalt  
Northern Nevada Literacy Coordinator,  
State of Nevada Department of Education

Training is available and highly recommended. Training is provided in accordance with the level specified in either the User's license or other related agreements or may be purchased separately.

The two options for training are:

1. **In-person training** (contact us for a price estimate)
2. **Live webinar training** (contact us for a price estimate)
